

15' Original Chestnut Bob's Special

Length : 15'
 Beam : 35 3/4"
 Bow Height : 19"
 Depth : 12 1/2"

The 'Chestnut Bob's Special', like the Prospector, is an icon in Canadian canoeing. Our model is on precisely the original lines taken from a pristine model. We have been building the wood canvas version for 20 years. Now available in a wood strip epoxy version "unmodified" and in its original lightweight form with low ends, wide beam, shallow arch hull and fine entry lines. It is still one of the finest 15' canoes for general use ever made for Omer Stringer style solo or tandem paddling. A perfect tripping canoe for 2 paddlers and their gear where much portaging is necessary.
