

The 16' Wilderness Express has become one of our most popular models. Its' generous beam and depth allows for carrying packs side by side, its' lower sheerline is not affected by wind. Moderate rocker gives it manoeuvrability and good tracking. No extra unnecessary bulk has been built into the design, its' rounded hull shape is very seaworthy, and together with its' beam is very predicatable and safe. The 16' Wilderness Express is an all round exceptional performer.

16' Wilderness Express

- Length : 16'
- Beam : 34 3/4"
- Bow Height : 21"
- Depth : 13 1/4"
- Rocker : 2 1/4"
