

17' WindStream

- Length : 16' 10"
- Beam : 34"
- Bow Height : 23 3/4"
- Depth : 12"
- Rocker : 1"

The 17' WindStream is an excellent canoe for fishing, long distance tripping and family use. Its' shallow arch hull and length provides stability and its' fine entry lines give it good glide with each paddle stroke while maintaining a graceful and elegant look. Moderate rocker makes for easy turning and tracking. The fullness of the hull at paddling positions makes for lots of foot room under the seats for kneeling paddlers. With its' 24" bow height and high volume hull this canoe has lots of room for gear and extra passengers.
